#DecommSupply

NDA Update

Magnox fuel reprocessing ends

- Reprocessing operations in Sellafield's Magnox Reprocessing Plant will end in July 2022. It marks the completion of an operational journey that began in 1964.
- Once reprocessing is complete, it will enter a new phase of clean-out and decommissioning.
- It has safely reprocessed nearly 55,000 tonnes of spent fuel. That's more than half the total volume of fuel ever reprocessed anywhere in the world.

NDA Update

Nuclear Waste Services

- NDA new waste division launched on 31 January.
- The last of the 'four pillars' to come into being.
- Nuclear Waste Services brings together Radioactive Waste Management (RWM), the Low Level Waste Repository (LLWR) and the NDA's Integrated Waste Management team

NDA Update

GDF Siting process

- Now three Community Partnerships in in West Cumbria. Community Partnerships are a further step in an exploratory, fact-finding and discussion process with the local community about hosting a GDF
- On the other side of the country, in Lincolnshire, Theddlethorpe has announced its local Search Area, i.e. the place where it would look to site a GDF. The local Working Group is looking to move the process forward over the coming months and establish a Community Partnership.

NDA Update

Geophysical surveys to begin in Cumbria

- First marine geophysical surveys set to start this summer
- Investigations off the coast to provide data about potential of deep rocks to host a Geological Disposal Facility

NDA Update

NDA - “Keeping the conversation going”

- Virtual NDA Stakeholder event was held on 26 November
- This year’s Stakeholder Summit will be an in-person event.
- It will be held in Edinburgh on 7-8 September
- We hope that representatives of all the SSGs will take part.

Making a difference
