Public Engagement Manager & Stakeholder Engagement
Diamond Light Source

Diamond Light Source

- The UK's national synchrotron scientific research facility
- Over 800 staff members based at Harwell
- Visiting user community of over 14,000 researchers from both academia and industry
- Free at the point of access through a competitive application process, provided that the results are in the public domain

New CEO Gianluigi Botton

Professor Botton joins Diamond from the Canadian Light Source where he has been its Science Director since May 2019. He took up his position in October.

Diamond-II funding award

The Department for Science, Innovation and Technology, together with Wellcome, announced approval for the innovative update and expansion programme to Diamond Light Source, at a total project cost of £519.4m.

Solar panel installation nearly complete
