

Sizewell Stakeholder Meeting

November 2023

Presented by Robert Gunn, Sizewell B Station Director

Safety Performance and Operations

- Sizewell B has operated at around full capacity during this period providing low carbon electricity to over two million homes.
- There has been:
 - **No recordable injuries**
 - **No nuclear reportable incidents**
 - **No environmental incidents**
- Sizewell B will be brought offline on **06 October 2024** to begin its nineteenth refuelling and maintenance outage, as planned - expected to last 60 days.
- **WANO Peer Review** - Peer reviews help members compare themselves against standards of excellence through an in-depth, objective review of their operations by an independent team from outside their organisation.

Our people

Our people:

- **572** EDF staff this includes
- **18** Apprentices, **2** Industrial placements, **2** Technical Trainees
- **11** Visitor Centre staff
- **6** new apprentices joined us in August
- **250** year round contracting partners

Long Term Operations programme

- EDF is fully committed to progressing the work required to extend Sizewell B out to 2055.
- To support this programme of work we will be increasing our headcount by 10% and work is progressing well with preparations and planning to date.

Sizewell B Relocated Facilities

- Sizewell B Relocated facilities project reaches a milestone as the installation of the steelwork structure of the new training facility is complete.
- The six week program of works carried out by Norfolk based company Wall Engineering, working for Barnes construction.
- Negotiations for utilisation of land within Sizewell A in preference to Pill Box Field, are progressing well.
- NDA have commenced the statutory de-designation process.
- EDF are working with Magnox to re-licence the land.

New land management facility

- Single story building containing office space, a meeting room, storage area, welfare facilities and a maintenance workshop, with parking.
- The facility for EDF's land management team and contractors from Freedom who have been with us for many years.
- To be constructed with functionality and sustainability at the forefront of its design including a sedum (living green) roof.
- Subject to the contractor appointment process, construction of the facility is currently scheduled to start later this year.

Sizewell B hosts successful 'Bring your child to work day'

- Over 100 children with their parents attended the event
- Aim is to introduce the children to the workplace and the world of work,
- The day involved a safety and security briefing, exclusive visit to the Main Control Room training simulator followed by a guided tour of the power station, then spending the rest of the day with their parent at their place of work.

Sizewell B wows the next generation with the world of work

- Sizewell B hosted 40 local school & college students providing work experience in a diverse range of activities from exploring the chemistry laboratories through to engineering.

Science in the summer holidays

- Hundreds of children have visited Sizewell B with their families over the summer holidays to take part in free science themed activity fun days.
- Themed days: **Movement** - planes, cranes, trains & automobiles - **Science and nature** - the world around us - **Science and the sea** - waves, sea-life - **Science lab day of experiments.**

Supporting our local community

- Warden's Trust approach road – issue with pot holes
- Sizewell B and partner Dalkia provided the resources

Before

OFFICIAL

After
