Site activities

Met the stretch target for legacy waste disposal

and completed the stretch target for Joint Waste Management Plan shipments

Site activities

Solar panels successfully installed & commissioned – this will contribute towards the 5% cost reduction challenge

Site activities

- 500 cables are now cut in the Turbine Hall & OTC (Since Apr 2023)
- Target for financial year achieved

Waste Projects – Vac Fill House

At the last SSG, I reported on progress of the main structure

All equipment has now been delivered and installation is near completion

Waste Projects – Early Fuel Element Debris (FED)

- Early FED retrievals at Oldbury is a significant step towards ensuring we handle our Fuel Element Debris in the most efficient and appropriate way
- Enabling works is now completed, all legacy waste materials have been cleared from the Active Waste Vault top to allow installation of bespoke equipment which will allow retrievals of samples from each vault over the next 12 months

Sustainability at Oldbury

Site Sustainability Working Group

- 2024 Action Plan currently being developed
- Solar panels installed and running
- NDA Exec Sustainability Visit – October 2023
- Opening of wellbeing garden – Summer 2023
- Ongoing work towards minimising generator use within key projects – cable installations

Environmental Sustainability

- Oldbury has reduced CO₂e emissions by approx. 30t/yr so far this year. Company target is 500t
- Biodiversity Action Plan
- Investigation into switching off appropriate vent plant – potential to save 50-90t CO₂e/yr
- Silt Lagoon 3 Stakeholder Event – Success

NRS soc-ec funding remains at

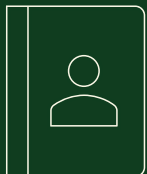

£1,020,035 annually

£302,958 already committed

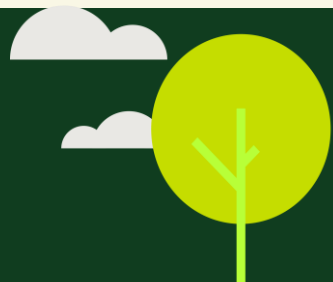

7 Oldbury funding requests totalling:

£34,983
