

Environment Agency – SSG update

Inspections

- Nuclear Operator Monitoring Assessment (NOMA)
- Climate change adaptation (joint with ONR)
- Pre-outage preparations

Compliance assessments

- Life-Time Safety Report (LTSR) and Long-Term Operation (LTO) programme

Permitting

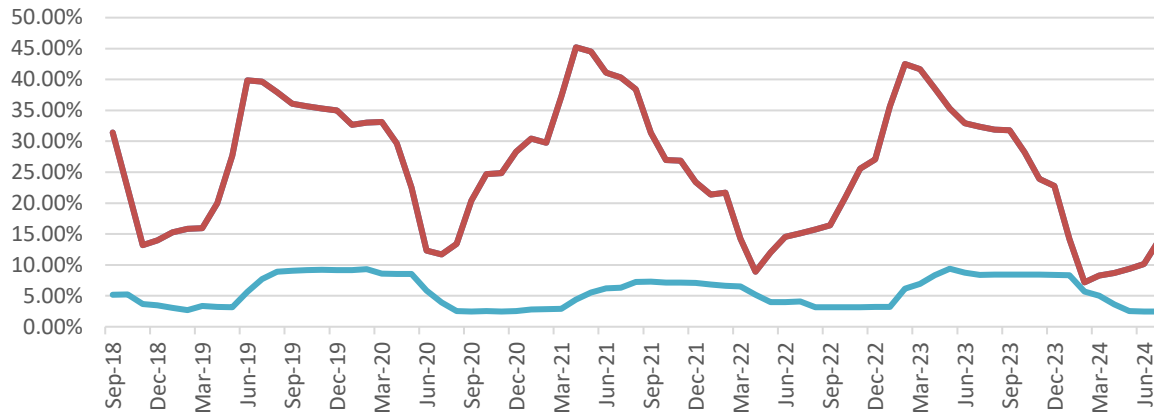

- EPR/XB3539DH/T008, effective 26 July 2024

Non-compliance

- CCS4 x 1: failure to implement BAT in environmental monitoring programme (as discussed at previous SSG)

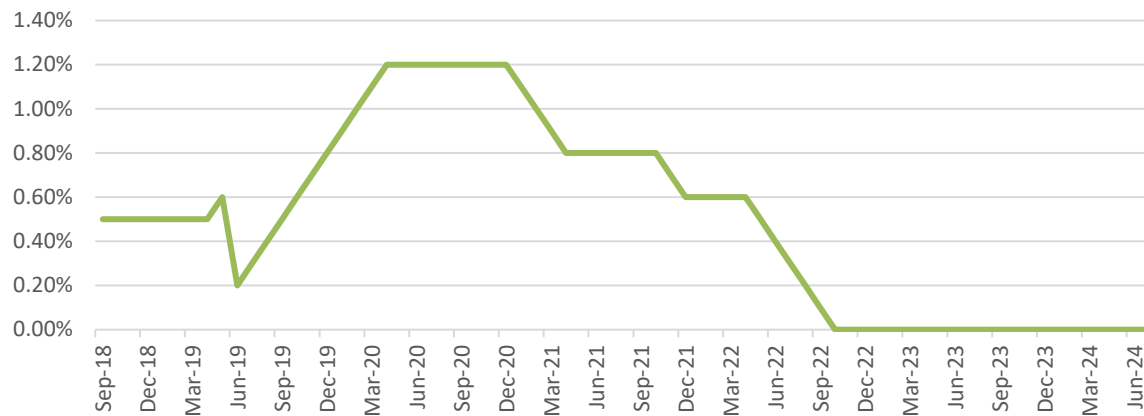

Sizewell B – liquid discharge profiles

12-month rolling totals, as % of annual limits

Tritium

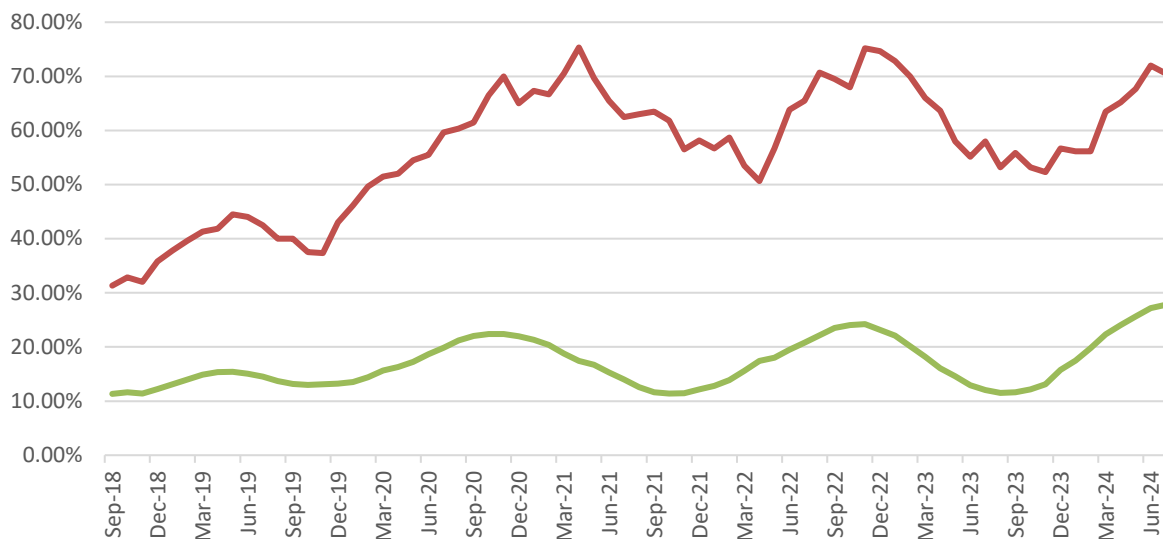

**Other
radionuclides**

Caesium-137

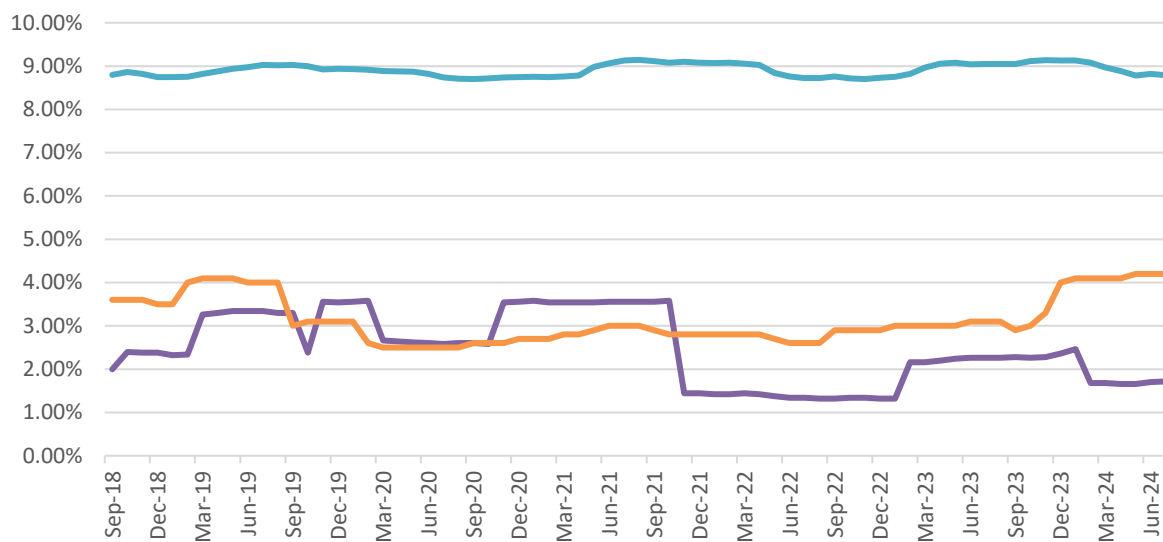

Sizewell B – gaseous discharge profiles

12-month rolling totals, as % of annual limits

Carbon-14

Tritium

Noble gases

Beta-particulate

Iodine-131
